nguage. One

ion of a

uotes. This

10 integers
all set to 0

```java
String myString = "Pure Michigan";
myString = myString.substring(0, 6);
System.out.println(myString); // Pure M
```

String firstName = "Margaret";

firstName = firstName.toUpperCase();

firstName.toUpperCase();   // this doesn't change firstName in storage

System.out.println(firstName.toUpperCase());
